RADICALS DEMAND MARCH ON BERLIN

FRENCH EXTREME ELEMENT CRYING OUT FOR ACTION

Poincaré Makes No Plan
To Occupy Germany If
Demands Ignored

PARIS IS PLACARDED

Premier Turns Deaf Ear to
Monarchists' Cry For
Open Hostility

(By the Associated Press)
LONDON, April 25.—There is reliable information declares a Central News dispatch from Genoa that M. Barthou of the French delegation has received telegraphic instructions to remain in Genoa at the conference upon terms contained in Premier Poincaré's speech of Monday.

The French delegation, says the message, has declared it will stand for a 48 hour ultimatum to Russia or else break from the conference altogether.

Premier Poincaré's speech caused great consternation in conference circles, it is added.

Poincaré Is Conservative.
PARIS, April 25.—Premier Poincaré has not adopted any plans for the military occupancy of Germany in case of default in German reparations of May 21, it was asserted in official circles today. The premier's speech yesterday in which he declared France would if necessary undertake alone to see the treaty of Versailles executed in case of default, is said to have been intended to make the government's policy clear and put an end to criticisms that France was practically in an obscure attitude.

The French premier, it is explained, considered it necessary to let the Genoa conference know exactly the attitude of France before the conference too far stand which the French delegation found itself unable to approve.

Sentiment Is Echoed.
The sentiment expressed by Premier Poincaré in his declarations of yesterday at Bar De Luc were sounded throughout France by leading republican members at the session of the general council of the departments.

The monarchists are worked up to a high pitch, and have placarded the dead walls of Paris with posters demanding a march on Berlin. Officials close to the premier, however, disapproved of the idea that he will take any drastic action.

Russia Picks Fault.
GENOA, April 25.—Foreign Minister Tchicherin of soviet Russia told the Associated Press today that allied resistance to the Russian principles of nationalization was blocking the economic conference.

"It is obvious," he said, "that the only serious obstacle to peace with Russia and Germany's reconstruction are the pretences of a few former owners of property in Russia."

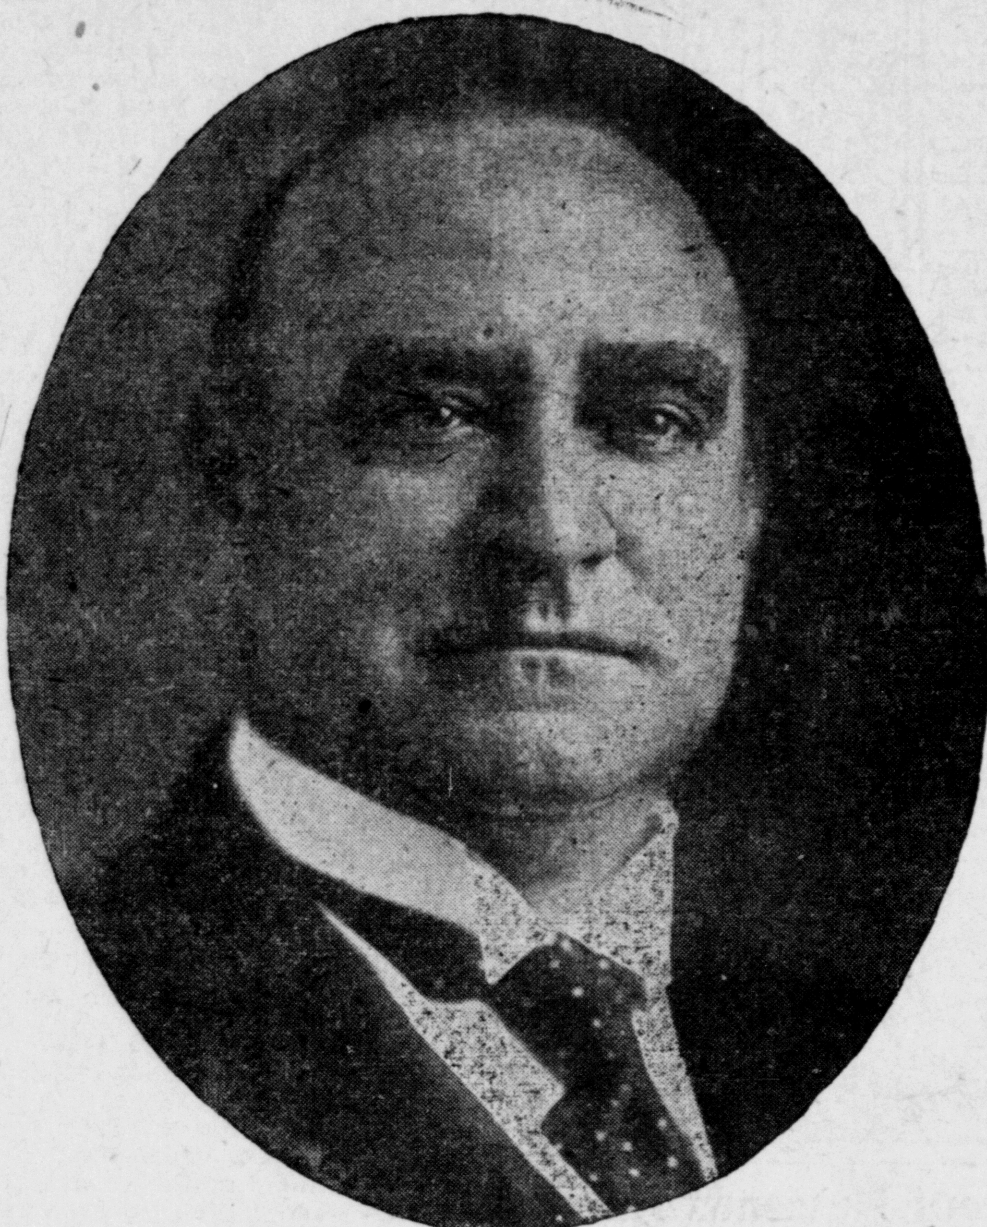

NAVY OFFICERS
SMUGGLE BOOZE
INTO COUNTRY?

NEW YORK, April 25.—A bootlegging scheme whereby liquor was smuggled into this country from Bermuda and Cuba on former submarine chasers commanded by officers wearing the uniforms of the United States navy has been unearthed it was announced today at the customs house. The former chaser 101, renamed Fidus, has been seized with the commanding officers and a crew of seven men, the announcement stated.

Customs officials are said to have received from the crew a story to the effect that pirates held up the chaser yesterday afternoon 20 miles off Montauk Point, Long Island, boarded the ship with drawn revolvers and took the cargo of liquor.

PAVING OF TOWNSEND
MAY BE ASKED SOON

Paving of Townsend avenue now is pending the presentation of a petition, which is understood to be signed by about 75 percent of the property owners on that street. Mayor Gary Kitchens announced this afternoon. There was some talk among property owners to the effect that the petition will be presented to the commissioners immediately after the new board takes its oath May 1.

Hon. Tom D. McKeown

Former congressman from this district and a candidate for the Democratic nomination. His announcement in full appears on page two.

Egg in an Egg Is Riddle For Fowl Experts

What is claimed to be the strangest local freak of the year is on exhibit at the Puritan Kandy Kitchen, on East Main street. It is an egg within an egg, laid by a normal hen of this city, according to Mrs. Pendercraft, owner of the fowl.

Two eggs were placed on exhibit, one of which was broken. One is of enormous size for a hen egg. The large egg when broken open was found to contain a white and yolk, and also a perfect, normal egg.

This is the second freak in the poultry line in this community within the past few months. Recently A. T. Trimm exhibited a small chicken which grew before it was 24 hours old.

U. S. MIGHT HAVE AVERTED THE WAR

Pershing Says Strong Army
Would Have Saved Much
Spilling of Blood.

(By the Associated Press)
WASHINGTON, April 25.—The United States with adequate military preparation and under strong leadership could have prevented the occurrence of the World War, General Pershing declared today in testimony before the senate military committee in behalf of the war department's plea for an increase in the military estimate over that proposed by the house.

Failure to respect the existence of inward jealousies and hatred "among nations as among individuals," he said, inevitably sent the United States unprepared into a great crisis and caused "unnecessary loss of life and left us staggering under heavy financial burdens."

Below Safety Minimum.

WASHINGTON, April 25.—The 115,000 enlisted strength army bill passed by the house "provides a military structure below the safety minimum of the nation," Secretary Weeks told the senate appropriation committee today in urging that appropriation for the next fiscal year permitting a force of 13,000 officers and 150,000 men to be maintained in the regular army. Should the house provision prevail, he added, not only would home protection be weakened, but overseas garrisons would be "inadequate and the development of 'citizen components' of our national defense system," would be seriously checked.

WHITE SECTION MUST BE WHITE

Mayor Launches Probe Into
Blacks Renting Houses
Not in Darktown

Mayor Kitchens stated today that a partially completed investigation of violations of certain city ordinances had shown grounds for the furtherance of an investigation and that he was preparing to make every effort to learn if the statements concerning the renting of property in the white district to negroes, by the white owners.

A city ordinance provides, he said, that negroes will be permitted to live in the white section of the city only when they are regularly employed by white people, and that the moment the pay stops, the negroes must return to the section of the city reserved for them or suffer the consequences.

He said that word had reached his office that some property owners of this city, who had servant quarters on their property but were not employing servants, had rented the buildings to negroes. If this is proved true, he said, both negroes and whites will be prosecuted for violation of city ordinances.

Disturbance Comes Up.

Several cases were up in police court Monday which gave considerable evidence in the case, Mr. Kitchens said. Some disturbances in the white section caused by negroes revealed the fact that many were in white town without a good reason.

Resident in the south part of the city have been quoted as saying that as many negroes now live in that section of the city as do in Dark Town, due to the renting of servant quarters to blacks by white property owners.

There is a city ordinance providing that no white people in Dark Town is a violation of the law, and also there is one just reverse, prohibiting negroes to live in the other section of the city unless on business. The same ordinance provides that a white man renting property or allowing a negro to stay in the white section is himself liable to prosecution, the mayor declared.

GOVERNMENT AT WORK ON PLANS TO END STRIKE

WASHINGTON, April 25.—The government is working on a plan looking to the ending of the coal strike which will be submitted soon to both operators and miners, it was said today at the White House. Details of the plan were not disclosed but it was said that it does not include federal supervision of the coal industry.

The plan which now is receiving the attention of President Harding and his advisors was said to contain a complete solution, if possible of the basic production of the industry. Presentation of the plan, it was indicated, would be made when a favorable opportunity presented itself.

CLOSING WEEKS FOR SCHOOLS TO BE INTERESTING

Commencement Exercises
Are Announced Today
By Officials

PATRON DAY MAY 12

High School Exercises to
Be Conducted May 19;
Banquet May 12

Activities of city schools for the remainder of the term will be almost continuous, according to a list of events released today by city school authorities. The last two weeks will see the most important of the events of the entire year, according to the schedule.

On the afternoon of May 12, ward schools will hold their annual Patrons' Day exercises, with school work on exhibit. The high school baccalaureate sermon will be preached by Rev. J. H. Ball at the First Methodist church on Sunday, May 14. Commencement exercises will be held on the evening of May 19, at the Methodist church, with Rev. H. M. Woods, pastor of the First Christian church, delivering the commencement oration.

The junior-senior banquet will be held on the evening of May 12. A senior class play will be held on the evening of May 18. The play carries the title of "Green Stockings." Grade school exercises will be held also at the First Methodist church.

About fifty high school seniors are to be graduated this year, school officials said.

The commencement address for East Central College graduates will be delivered by Henry J. Waters, editor of the Kansas City Week-Star and for years a prominent school man. His talk will be the "New Normalcy."

300 ODD FELLOWS MAY ATTEND MEET

Street Parade and An Open
Meeting To Be Features
of Celebration.

Between 200 and 300 Odd Fellows and Rebekahs of the county are expected in Ada tomorrow for the annual anniversary celebration of the county association. The order has eleven lodges and about 600 members in the county.

Odd Fellows subordinate lodges to be represented are Ada, Francis, Pittsburgh, Roff, Center, Allen, Stone-wall and Steedman.

The afternoon program will be opened by a street parade of Odd Fellows and Rebekahs in regalia. A public meeting will be held at the Methodist church immediately after the parade.

Following is the complete program of the meeting:

Forenoon: Reception and registration.

12 m. Dinner.

1:30 p. m. Parade of Odd Fellows and Rebekahs from I. O. O. F. hall led by the High school band.

2:00 p. m. Open meeting at First Methodist church, corner Fourteenth and Townsend.

4:00 p. m. Meeting of County Association at I. O. O. F. hall.

6:00 p. m. Supper.

8:00 p. m. Conferring degrees of subordinate lodge at I. O. O. F. Hall.

8:00 p. m. Conferring Rebekah degrees at Elks Hall.

Open meeting at Methodist church at 2 p. m.

Music—Quartet.

Invocation—Rev. J. H. Ball.

Address of Welcome on behalf of I. O. O. F.—Tom D. McKeown.

Response to Address of Welcome.—A. L. Bullock.

Reading—Miss Mildred Cummins.

Address on Odd Fellowship—Past Grand Master I. R. Mason, of Ardmore.

Closing Song.

A cyclone rushes at the rate of 585 yards a second.

HOTEL GUESTS GET MARKET QUOTATIONS FROM RADIO EXPERT'S TALKING VALISE

A man walked into the lobby of the Drake hotel in Chicago carrying a valise. Nothing unusual about that. But suddenly the guests heard market reports, operatic selections, and various other sounds. The man, F. W. Dunmore of the U. S. bureau of standards, then opened the valise and demonstrated the radio set in his "talking valise."

F. W. Dunmore and his valise which talks as its master walks.

CITY NEAR READY TO LET CONTRACT

Building of Pyramid May
Start Soon, Good Road
Club Announces

All except a fraction of Ada's quota on the Ozark Trails has been raised and bids have been received upon a pyramid to be erected here, according to a report this morning from N. B. Stall, temporary secretary of the Good Road Motor club.

Because the Oklahoma Portland Cement company has donated cement for the pyramid, its total cost will be cut to about \$200, the club estimates. The lowest blanket bid on 13 pyramids to be erected between Stratford and Texarkana, on this branch of the Trails, was \$275. This will represent a neat saving to the city, it was pointed out.

Ada's quota on the trail has been cut from \$1,000 to \$300 and only about \$150 of this remains to be raised. As soon as the total is complete it will be sent to district headquarters after cost of the pyramid has been deducted and 10 percent of the remaining quota is saved at home for use in case of emergency, such as repairs in marking posts or repairs on the pyramid.

At the Coalgate meeting Ada was flayed for not having her quota complete but silenced all criticism by an ironclad promise to present the sum complete as soon as all other towns along the Stratford-Texarkana line had placed their funds into the division treasury and thereby signified their readiness to go forward with the enterprise.

Library Members To Open 2-Day Session at Muskogee Today

(By the Associated Press)
MUSKOGEE, April 25.—Members of the Oklahoma Library association gathered here today for the fifteenth annual convention of the association which will last two days. These sessions daily will be held at the Muskogee public library.

Following a business session this morning, the delegates this afternoon were to be addressed by Miss Alice I. Hazeltine, supervisor of children's work in the St. Louis library, on "The Selection of Books for Children." Miss Myra S. Grosh of Tulsa was to talk on "The Story Hour in the Library." A visit to West high school library sub-station and the Oklahoma School for the Blind near here was to conclude the afternoon session.

At a dinner tonight the speakers are to be Mrs. J. R. Dale, secretary of the Oklahoma Library commission, Miss Ada J. McCarty of Madison, Wis., and Miss Hazeltine.

The county library movement will be discussed tomorrow morning by Arthur R. Curry of Norman, and Miss Lillian Gunter of Gainesville, Texas. Miss McCarthy will also speak. The women's history club will entertain the delegates at a dinner and in the afternoon Mrs. John Threadgill of El Reno will address the convention on "The Librarian's Own Reading." Miss Bess Stewart of Oklahoma City will lead a round table discussion.

Legion Heads Submit Final Bonus Scheme

(By the Associated Press)
WASHINGTON, April 25.—Information conferences on the soldiers' bonus legislation between the senate finance committee and representative officials of the veterans' organizations, were closed today and Chairman McCumber said it was agreed to go ahead with the working out of the details of the measure. When this has been done, the matter will be taken to the president.

Spokesman for the veterans were reported as having expressed satisfaction with the proposal to substitute a 20-year endowed insurance policy for the adjusted service feature of the house bill. A modification that will make borrowing of money from the banks possible. They also were said by some committeemen to have offered no objection to the retaining of the land settling option.

LADY ASTOR SAYS WORK IS DEMAND

Confidence Will Restore
World Harmony, Woman
Commoner Asserts.

(By the Associated Press)

NEW YORK, April 25.—Lady Astor, in the speech which she prepared today for the annual luncheon of the Associated Press at the Waldorf-Astoria defined as the heart of the great principle which she was striving to plant in public life by entering politics was "what any man gets from his mother and most men get from their wives if they choose wisely," selfishness, vision, courage and cleanliness.

"But," said the first woman seated in the British House of Commons, "turn to practical politics, what the world needs most in a practical way is work, and trade is the most practical way to start work. 'Establish confidence' she urged. 'Force confidence between capital and labor then confidence in your country and then confidence in other nations.'"

There she continued, is where the press comes in.

"It is for the press to unite this country and foreign trade and to promote the spirit of peace."

"I know many of the American foreign correspondents. They are most able men, a credit to the American press. They are trustworthy. That is the opinion formed by the people who know them in Europe."

"If the press wants to unite the country, it can, or if it wants to disunite them, it can."

"America wants peace! America started the League of Nations. All Europe looks to America, not for large armies, not even for food, but for a great moral lead, help us."

11 ARE DROWNED AS TEXAS FLOOD HITS FORT WORTH

Property Damage Reaches
\$600,000 and 1500 Are
Homeless Tuesday.

CAR SERVICE SUFFERS

Nine Inches of Rain Falls
In 12 Hours, Breaking
Every Record.

(By the Associated Press)

FORT WORTH, April 25.—Eleven persons were drowned, at least 1500 made homeless, the city water plant put out of commission, other public utilities ended, property damage of \$600,000 inflicted, interurban traffic was suspended and street car service crippled as a result of the Fort Worth storm, the most terrific that ever visited this section, Monday night and Tuesday morning.

Nine inches of rain fell here between ten o'clock Monday night and ten o'clock Tuesday morning, breaking all previous records.

All ambulances in the city and scores of automobiles were put into service to rescue stranded citizens.

(By the Associated Press)

FORT WORTH, Tex., April 25.—The death list in the Fort Worth flood was increased to seven this morning when a boat loaded with men and women and children who had been taken off roofs into the boat, capsized. Two women drowned and a man drowned at the same time.

FORT WORTH, April 25.—The Trinity River stood at 33.5 feet this morning, next to the highest record here. Several inches of rain fell last night, setting a new record. The levees around the city are holding everywhere and there is no immediate danger. Many homes of this city are flooded and some parts of the city are cut off. The municipal water system is down and electric lights are out.

Two women who had taken refuge in trees at the foot of the lower bridge were drowned when the trees collapsed. Other refugees in nearby trees and on house tops saw them fall but were unable to reach them.

It is estimated that 300 people have been driven from their homes. Reports to Red Cross workers who have already established a relief headquarters, say many are missing but are probably on isolated high places or in marooned houses. At 8 o'clock a lumber yard on the west side, completely surrounded by the flood waters, caught on fire and burned. Firemen were unable to reach the flames.

Twenty-four inches of water was pouring over Lake Worth spillway today, but the dam was in no danger city officials announced.

WATTS REMOVED FOR TELLING OF FEDERAL SECRET

(By the Associated Press)

WASHINGTON, April 25.—By direction of the attorney general, W. O. Watts, special agent for the department of justice, was removed today "for disloyalty to the department after he admitted that he had furnished to Representative Johnson, republican, South Dakota, certain information on which Mr. Johnson based an attack on the department in a recent speech in the house."

The order of removal was signed by Assistant Attorney General Holland and was made public by the department. In a letter to Watts, Mr. Holland said the step was taken "inasmuch as you have knowingly and willfully violated the rules of the department which as you must be aware, constituted a breach of trust."

NORMAN HOWARD POST IN MEETING TONIGHT

Norman Howard post of the American Legion will hold its regular bi-weekly business meeting tonight at the Legion hall, Gilbert F. Polly, post commander, announced this morning.

Business of considerable importance connected with spring activities of the post will be on docket, Polly said, and matters of importance concerning the memorial hall and Legion memorial plot in the cemetery will be up for discussion.

BIBLE THOUGHT OF TODAY

★ SEEK TODAY:—Seek ye the Lord while he may be found, call ye upon him while he is near.—Isaiah 55.

THE EVIL TONGUE.

Man has advanced far since the stone age, but there yet lingers a tinge of cruelty in many who seem to find pleasure in witnessing suffering. The fellow who is down gets no sympathy from them but they do give him plenty of kicks. If he is trying to struggle upward they delight in pulling him back. Whenever they might help with a good word they crush him with a bitter one and spread abroad the story of his past. If a man is prospering their vicious tongues are used in trying to tear him down. In fact, all the damage that can be wrought by a tongue of ridicule, gossip and slander affords these people their chief joy in life. The ancient Romans never gloated more in the bloody combats of the arena or the torture of Christian martyrs than do these survivals of the dark ages. No community is free of them and there is no way of silencing them other than for the public to ignore their villainous outbursts.

MANUFACTURING CENTER MOVES WESTWARD

According to a trade bulletin issued by the National City Bank of New York, the Atlantic seaboard states no longer supply the great bulk of manufactured products. In 1870 seventeen states of this region produced 68 percent of the entire volume. By 1880 this figure had fallen to 64 percent and to 56 in 1900 on down to 49.7 according to the census of 1920. The out-turn in value of the factories of the eastern tier of states as shown by the 1920 census was 11 times as great as shown in 1870, but the rest of the country showed a gain of twenty-two times. As manufacturing enterprises reach new fields they have much in transportation costs. When Oklahoma cotton is spun and woven within the borders of the state it will save the freight on the raw material to New England or to Liverpool and on the finished product when it is returned to its starting point.

WOMEN GOING AFTER MISS ALICE

If the League of Women Voters can wield any influence in Oklahoma politics Congresswoman Alice Robertson is due to return to private life a few months hence. Such is the decree of the convention now being held at Baltimore. Miss Robertson has shown an independence that these professional reformers cannot tamely endure, hence their determination to get her scalp. Among other offenses she was one of the few Republican members who voted against the anti-lynching bill and the League hopes to array the negro vote solidly against her in the coming election. Whether right or wrong it cannot be denied that she has shown an independent attitude in congress that many of the male members might emulate to the advantage of the country. No boss has told her where to head in.

THE GERMAN SPIRIT.

The Germans would have fared better if they had shown a disposition to live up to their promises as embodied in the Versailles treaty. Instead of that they have had to be forced to do everything that they have done, whining all the time that they simply couldn't. The natural inference is that they still regard treaties as mere scraps of paper and while this spirit is manifested there is little chance of the allies showing much mercy. It has reached the point where no one takes much stock in their cries about being impoverished. The hope of the Germans to escape from paying for their crimes lay in a division among the allies but the conduct of the Germans has been such as to hold the former enemies together.

The Fort Worth Record publishes a map showing the states in which candidates running on the wet ticket expect to make heavy gains this year. Among these is Oklahoma. This is some news to Oklahomans, for the state has been dry since statehood and we have yet to hear of a man making a race on the wet issue. The map maker got his colors wrong that time.

The spring shower of Sunday will help gardens and make ploughing much easier, we are told. As a general rule, Oklahoma delivers the kind of weather we have to have. If she will now deliver a knockout to the boll weevil, we'll label it the best yet.

An egotist has been defined as a man who insists on monopolizing the time telling you what a great fellow he is when you are itching for a chance to tell him the same things about yourself.

Over-zeal is like a shotgun loaded with half a pound of powder, it does more damage to the one behind it than to the object aimed at.

Now that the fruit crop has escaped danger of the frost we can begin to take more interest in other crops and the possibilities of a good yield.

FINALLY A WAY IS FOUND TO KEEP JOHNNY AT WORK IN THE GARDEN ON SATURDAY

The Forum of the Press

Why Not Fathers' Day?

(Enid News)

As the time for the celebration for "Mothers' Day" approaches the inquiry arises, why not a "Fathers' Day?" The latter day is being observed in many sections of the country with just as much interest and enthusiasm as the former. It is a day calculated to cultivate a more closer comradeship between father and son. The following from the Hillsdale Correspondent to the Enid Events expresses a fine sentiment seldom heard. It is refreshing in this jazy age that there is someone who gives credit to the head of the family and who is always on the job.

It is now the time of year when "Mother's Day" is celebrated. Of course, mothers are the grandest people on earth and should be honored every day of the year, but it seems not quite fair that there is no "father's day" in our calendar of special days. There are just as many fine fathers as there are mothers and here is a little poem that seeks to give "Dad" a little bit of the well deserved praise that belongs to Dads in general, but which they very seldom receive.

"DAD,"

Only a "Dad" with a tired face,
Coming home from the daily race,
Bringing little of gold or fame,
To show how well he has "played the game."

But glad in his heart that his own rejoice
To see him come, and hear his voice.

Only a "Dad" with a brood of four,
One of ten million men or more,
Flogging along in the daily strife,
Bearing the whips and the scorns of life

With never a whimper of pain or hate
For the sake of those who at home await.

Only a "Dad" neither rich nor proud
Merely one of the surging crowd
Toiling, striving from day to day,
Facing whatever may come his way;
Silent, whenever the harsh condemn,
And bearing it all for the love of them.

Only a "Dad," but he gives his all
To smooth the way for his children small.
Doing, with courage stern and grim,
The deeds that his father did for him.

This is the line that for him I pen:
Only a "Dad" but the best of men!
—Audrey Thatcher, Kansas City.

Playing the Game Out.

(Hugo News.)

The president of the United States by virtue of his position is head of the diplomatic corps of the United States. As such he is entitled to the support of all Americans regardless of political belief. His policies should not be tampered with in a semi-official way for the meddling of men ignorant of the fabric of his plans might bring disaster to the nation.

Senator France of Maryland has written a letter to Lloyd George with regard to the Genoa conference. Senator France recently made a tour of Russia. It is not known just what his connection with the Russian government may be. He may only admit soviet principles. But Senator France may well be classed as a suspicious character.

Lloyd George, of course, has pigeonholed the letter. It will occasion him no worry inasmuch as it did not come from an official source

in America. There is a code of diplomacy that protects us even from the indiscretions of our countrymen.

Learning From Ford.

(Lawton Constitution)

Every business man from the proprietor of a cross-roads store to the industrial magnate, can learn something from Henry Ford, because Ford's success is the greatest in history.

Ford makes automobiles and sells them cheaper than anybody else. He makes and sells as many several times over as all the other automobile makers in the world. Doubtless Ford could easily convince himself that his automobiles are worth much more than he asks for them. The result would be failure through the greatest pitfall of modern business.

But that isn't the Ford psychology. Ford says he always set his prices at what people could afford to pay for his automobiles, and they were always far below what it cost him to make them when he set the prices. He was forced to cut costs to meet the prices he had set. The result is the most efficient industry ever conceived by man—and a fortune for Ford of hundreds of millions.

For the young man who, peeved because his employer does not "recognize his ability," does not make a supreme effort to thoroughly master his job first, and collect afterward, there is also a lesson in this.

A SMILE A DAY

The Luck of the Horseshoe.
The grocer had a horseshoe nailed Above his gilded sign.
The teamster o'er his stable door Displayed no less than nine;
The blacksmith flitly hung aloft An old and rusty one,
The man that owned the new garage Alack, alas, had none!

The grocer's till was tapped by thieves,
Who shot him in the back;
The teamster and the through express Collided on the track.
The blacksmith drowned himself one day,
And lo, it's mighty funny,
But that garage-man's safe adn sound

And making lots of money!
—Wayside Tales.

Remembrance

I once wrote a verse to my lay's eyebrow.
It was beautiful, a charming bit of poetic fancy. Everybody admired it.

Now, five years later, this little poem has grown enormously in value. My lady herself treasures it—a sort of memento, I suppose, because—

She has no eyebrow to speak of—
Sh! Sh!
Tho' birthday parties bore them,
The ladies all say,
They'd rather keep their birthdays Than give them away.

Going and Coming.

"I cracked a lawyer's house the other night," said the first burglar disgustedly, "and the lawyer was right there with a gat all ready for me. He advised me to get out."

"You got off easy," commented his pal.

"Easy nothing!" exploded the other. "He charged me twenty-five bucks for the advice."—American Legion Weekly.

MUSKOGEE—More than 100 horses are expected to be seen in action here when races are held at the Oklahoma Free State Fair grounds April 26, 27 and 28 in connection with the annual style show.

Scout Descends Into Deep Well To Rescue His Dog In Distress

DUNCAN, Okla., April 25.—

Brown Balieu, a member of a local Boy Scout troop, sponsored by the American Legion of this city, permitted himself to be lowered into a 45-foot well recently by a number of his comrades and his scout master, and rescued a small dog that had fallen into the well.

The boys of the troop had gone on an over-night hike to a camp near here. They spent the night and when they went to the well in the morning they saw the dog. Every boy in the troop volunteered to make the descent to rescue him.

Reaching the bottom, Balieu took the rope around his own body where it had been tied and fastened it around the dog, sitting the while on a large floating log. After the dog had been drawn to the surface, the rope was again lowered to Balieu and he was pulled out.

McKEOWN ENTERS CONGRESSIONAL RACE

To the Democrats of the Fourth Congressional District of Oklahoma:

I enter the race for the democratic nomination for Representative in Congress from the Fourth Congressional District of Oklahoma, and in doing so I ask of you that same fair and favorable consideration that you have accorded me in the past.

You gave me the democratic nomination in 1920 and I appreciate that honor and because of the large plurality I received the sting of defeat in the fall election was ameliorated. When the great landslide came I did not complain nor murmur because the right to fill the position belongs to the people.

During the four years I served this district in Washington I received generous support at the hands of the people, and in turn I endeavored to discharge my duties in the House of Representatives and render to my constituents the best service I could.

I favor a reduction of the present cost of federal government.

I believe in requiring the employees of the government to give efficient service and the discharge of all who are not efficient and not needed to carry on the work.

I am opposed to the present inefficient method of selecting appointees by an inefficient Civil Service Commission.

I favor the immediate consideration of our domestic problems by the Congress to the end that the country may recover as rapidly as possible from its present conditions.

I favor the resumption of commerce and trade with the nations of the world and I am opposed to the policy of isolation now being carried out by the present administration.

I favor the encouragement of foreign markets for cotton and the establishment of proper financial facilities for its exportation.

I favor the passage of legislation similar to the bill I introduced in the 66th Congress providing for a permanent system of financial assistance to farmers and cattlemen. This must be done if the people of the United States are to have a plentiful supply of food.

I voted against the Esch-Cummings railroad law which guaranteed returns to the stockholders of the railroads at the expense of the public and employees. The high railroad rates and discrimination permitted by the Interstate Railroad

Commission at Washington calls for legislation restoring immediately the powers of the Corporation or Railroad Commissions of the several states and for eliminating of watered stock values and for the control of the overhead expenses to the end that rates may be reduced to meet the necessities of the country and yet be able to pay the employees a living wage.

I favor a plan by which the government shall use the interest on the foreign loans to lend the full value where necessary to soldiers of the Spanish-American and World War to purchase homes in the country or in the cities, towns or villages with a reasonable limitation in amount to be repaid in annual payments in thirty-three years.

I favor the continuation of Federal aid for good roads under the control of each state, but I am for an act of Congress making it a felony for any employee, engineer or contractor to misrepresent the quality or quantity of labor or material furnished to any federal aid project in any state.

I favor the establishment of an Assistant Commissioner of Indian Affairs in Oklahoma where all matters touching Indian Affairs in this state can be disposed of quickly and intelligently.

I favor legislation to curb the arbitrary power of the Federal Reserve Board and to prevent the accumulation of excessive profits from interest rates.

The past twelve months have demonstrated the necessity of expanding the federal farm loan activities so as to enable farmers to own their own homes. The financial conditions since 1920 have caused hundreds of farmers to lose their homes by foreclosure proceedings. Home ownership is the foundation of real prosperity and contentment of the great bulk of our citizens, and should extend to every community in the nation.

Want of space forbids mention of other important matters.

I hope to have the pleasure of meeting many of you whom I know personally, and of making the acquaintance of those who have come to live with us in this district. My health is splendid and I expect to be over the district as much as circumstances will permit.

Assuring you that I will appreciate your support and vote, I am
Cordially and sincerely,
TOM D. McKEOWN.

TULSA—Tentative plans for the construction of a million dollar hotel were announced recently by R. H. Ketchum, proprietor of a leading hostelry here. The new hotel would be fifteen stories high, according to the plans.

The Favorite Spring Shoes

Edmond's "Foot-Fitters"

"Fit All Feet"

The reason lies in their trim, tasteful appearance, and the downright solid comfort developed in these models for spring.

"Foot-Fitters" are especially designed to fit snug in the instep and heel and easy across the toe and ball! No pinching! That's why they hold the foot correct and in an easy position without retarding the circulation.

You men who want lots of wear, fine appearance and comfortable fit will like the "Foot-Fitter."

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework—
Lydia E. Pinkham's Vegetable Compound Made Her Strong

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the ad. in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. WM. JUNKKE, Foster, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

GREATEST POETS WRITE NO JAZZ DITTIES, EMINENT TEACHER SAYS

(By the Associated Press)

LOUISVILLE, Ky., April 25.—The greatest poets write no verse for jazz melodies. Dr. Reuben Post Halleck, author and educator of Louisville, said last night in addressing the twenty-ninth annual meeting of the International Kindergarten Union on "The Child's Lexicon."

"It seems strange that censorship should be demanded for moving picture films and not for music," he continued.

"The soul is influenced for good or evil through the gateway of the ear as well as the eye. The ancient Greeks realized that music had great influence on morals. Their educational theory led them to keep the wrong kind of music from their pupils. The United States rightly declines to be an agent in disseminating immorality. It forbids the use of the mails to immoral pictures and literature that make their appeal through the eye. Why should it open the mails to that still more dangerous type of jazz music which comes from the harems of the Barbary Coast?"

"Neither Shakespeare, the psalmists or any of the great poets of the past wrote anything that could be used as lyrics for the jazz songs of today."

Dr. Halleck advises teachers to exert great care in forming the

child's lexicon. "The child's lexicon is compiled entirely from his own experience," he said. "He always consults that lexicon to translate whatever his teacher or his books tell him. And the child is enabled to add to his usable lexicon only through experiences that appeal to him."

"The pursuit of happiness," one of the most striking phrases in the Declaration of Independence, appears in an early edition of the child's lexicon. As a result of the relapse toward barbarism caused by the world war, the child has been led to write the word "jazz" in his lexicon, immediately under "pursuit of happiness." This word would never have appeared in the lexicon of a Greek child because the ancient Greeks were as careful about the moral quality of the music as of the literature given to their children.

"Most teachers make the unwarranted assumption that what they say to a child in English must necessarily be understood. They do not seem to realize that a pupil needs to consult his own lexicon of experience for translating English as if it were a foreign tongue. The teacher may be an expert in extracting the meaning from the English that he hears or reads, but the pupil acquires only such skill as result of long experience."

NEWSNOTES FROM MOVIELAND

"The ignorant flapper has small chance to succeed on the screen when competing with the educated girl."

Thus does nineteen-year-old Madge Bellamy, daughter of a professor of English at the University of Texas and now a film celebrity, size up the situation for feminine aspirants to cinema honors.

The little star, who was known as Madge Philpotts in her school days, is a native of Hillsboro, Texas. She was educated in Denver. Her education combined music, piano, toe dancing which she commenced at the age of six, in addition to the very deepest, darkest philosophies and classics offered in college courses.

With these accomplishments, she braved New York, undertaking to have her voice cultivated. She took the stage name of Bellamy. Her dancing proficiency obtained for her a place in a musical comedy. Then after a season in stock and a Broadway appearance with William Gillette in "Dear Brutus," she went to California to make pictures under Thomas Ince.

As Nan in "Hail the Woman" she won unusual notice. She is now making "Lorna Doone," that classic masterpiece of old England in which she will play the little role.

Her Next.

In her latest Fox picture, Eileen Percy will play the part of a stranded actress. "Elope If You Must" is the title and the author is E. J. Rath.

Changed His Mind.

Eugene O'Brien, at one time studied with the intentions of becoming a surgeon but later decided to do his "cutting up" on the stage. He says it gives him shorter hours.

Patterson-Whitehead.

Cecil F. Patterson, Oklahoma City, and Miss Margaret Whitehead, Ada, were united in marriage Monday by County Judge Tal Crawford. It was the culmination of a romance started ten years ago when the two young people were schoolmates at Vanoss.

The bride has a large acquaintance in the city. Several years ago her family moved to Oklahoma City but returned to Ada. Patterson is a son of Mr. and Mrs. R. H. Patterson of 921 East Eighth street and is making headquarters in Oklahoma City. He is an express messenger on the P.F. Co.

Mr. and Mrs. Patterson left yesterday for Oklahoma City, where they will make their home.

Mrs. Olson Entertains.

Mrs. Lester H. Olson entertained yesterday afternoon at her home 817 East Twelfth street in honor of her son Jimmie's sixth birthday. She was assisted in entertaining by Mrs. Clarence Weaver.

After an hour of games, delicious refreshments were served to the following guests: Mary Jane Campbell, Cleo Campbell, Genevieve Bowles, Lucy Anderson, Angeline Anderson, Juanita Shirley, Tootsie Masterson, Florida Criswell, Vertrees Smith, Harold Criswell, Billie Masterson, Shelton Dandridge, Horace Newton, Richard Wray, and Jimmie and Beta Ann Olson.

Mrs. Brents Hostess.

Mrs. T. E. Brents entertained her son, Ed, who is athletic coach at Purcell high school, and his baseball team last Friday evening at her home on South Broadway, while they were here to attend the East Central Track and Field meet. About 12 boys were guests.

The house was beautifully decorated in cut flowers and potted plants. Following was the menu served: baked chicken, creamed potatoes, candied sweet potatoes, corn, sweet and sour pickles, angel food and Chess cake, and ice cream.

Madge Bellamy.

and more pay. Besides, his brother is a physician and he gets free service.

Deserts Screen.

When Margaret Marsh finishes her new picture at the Hollywood studio of William Fox, she is going to desert the screen for a while, and appear on the speaking stage. Miss Marsh has been leading woman for Dustin Farnum, appearing with him in "Iron to Gold." Her stage play will be called "Be Yourself."

COAL SUPPLY MAY LAST TWO MONTHS

Thirteen States Report Big Supply As Strike Enters Its Fourth Week

CHICAGO, Ill., April 25.—With the coal strike in its fourth week, a survey of thirteen states, including Pennsylvania, Alabama, Kentucky, Texas and most of the mid-western states, indicates that coal supplies for at least sixty days are on hand generally, while stocks in several places were expected to last from ninety days to four months.

Many of the larger factories and public utilities reported the possession of enough fuel to last well into the summer, but in some states the smaller towns and some independent factories were less amply supplied, although relief sufficient for emergencies was expected from non-union mines still in operation. Many Kentucky mines were said to be working day and night, and Alabama production was described as near normal. Confidence rather than anxiety, so far as the fuel supply is concerned was the rule in all states from which reports were received.

Little unusual demand was evident; in some cases dealers declared that there "will be no market" or that they had more than enough coal on hand. Prices generally are static. Operators and dealers announced, however, that there would be no summer reductions, with the striking exception of the Alabama district, where it was stated that summer prices would be thirty percent lower than last year.

There have been no general summer prices for Missouri, Kansas, Oklahoma and Arkansas since the federal fuel administration relinquished control, according to W. L. A. Johnson, general commissioner of the Southwestern Interstate Coal Operators' Association. Any reduced summer prices, Mr. Johnson said, have been the result of isolated action by independent coal companies that were overstocked.

12,000,000 Women in U. S. Earning Wages Is Report

(By the Associated Press)

BALTIMORE, Md., April 25.—Pointing to the 12,000,000 wage earning women in the United States Miss Mary E. McDowell of Chicago told the National League of Women voters today that "the handicaps of the women wage earner demand that society for its own sake shall safeguard her health and her future working conditions that uphold and do not debase the American standard of community morale."

Miss McDowell, who delivered her report as chairman of the committee on women in industry, also recommended technical training for women who desire to work with tools and metals.

"A late study shows that 85 percent of the wage earning women are supporting others," Miss McDowell continued in her report.

"Our social security lies in an unpauperized, healthy working class. We ask for minimum wage boards to prevent any group of wage earning women being paid a pauperizing wage, because a low-paid group is a menace to social and industrial life. The business built upon low paid women workers is a parasitical industry that depends upon the communities' subsidizing its victims."

"We ask for an eight-hour day; for one day's rest in seven and for prohibition of night work for women because the American standard of living demands a healthy, rested motherhood."

"The children of tired mothers will be unequal to the future demands of an American democracy."

"We women voters want every safeguard thrown about the millions of young women wage earners. We want women employment managers in factories and stores. We want trained, intelligent sympathetic women industrial managers wherever women work. We want broader industrial training for women who love to work with tools and metal as well as those who prefer the traditional domestic science line. We want women voters want women on all mediatorial boards that deal with industrial differences where the interests of women workers are involved. Family life, the cornerstone of our American society, must be safeguarded by every means that is within the power of our new political opportunity. Women have political equality but no equality in the world of work."

Managers of vaudeville houses and the motion picture house managers in the demand for a reduction in wages. Vaudeville houses announce that after the expiration of the present season they will reduce the size of their orchestra. The two large play houses are to employ orchestras only when presenting musical plays, it was stated.

Musicians to Strike April 30 As Result Of Wage Reductions

(By the Associated Press)

ST. LOUIS, April 25.—Managers of 90 local motion picture theatres, employing approximately 400 union musicians announce that after April 30 they will have no orchestras because the Musicians' Union has rejected a proposed wage reduction.

In submitting proposals for lower wages, the managers declared that although attendance has shown a decrease of 35, or 40 percent since last May, the expense of furnishing music remains the same.

The musicians have not voted to accept any reduction, and officials of the union state that with the exception of a few outlying neighborhood motion picture houses, the theatrical business in St. Louis is being conducted on a successful financial basis.

Managers of vaudeville houses and the motion picture house managers in the demand for a reduction in wages. Vaudeville houses announce that after the expiration of the present season they will reduce the size of their orchestra. The two large play houses are to employ orchestras only when presenting musical plays, it was stated.

1500 MAY ENGAGE IN DRAKE RELAYS

40 Universities and Many High Schools Will Send Crack Athletes

(By the Associated Press.)
DES MOINES, Ia., April 25.—Drake University here is preparing to receive from 1,000 to 1,500 athletes, representing 35 to 40 universities and colleges and approximately 90 high schools, who are expected to participate in the Drake Relays April 28 and 29, according to preliminary entry lists of K. L. Wilson, athletic director of Drake.
Many of the country's greatest athletes will get into action here in the coming classic. Among these will be Gus Desch of Notre Dame, holder of the world's record in the 440-yard low hurdles, Landowski of Michigan and Merrick of Wisconsin, pole vaulters who recently tied at 12 feet 9 inches in the Illinois indoor meet; Bill Hays of Notre Dame, former national champion in the 100 yard dash; Sundt of Wisconsin, weight man; Platten of Wisconsin and Osborne of Illinois, high jumpers; Everett Bradley, of Kansas University, and Brutus Hamilton of the University of Missouri, Bradley an Olympic star, established a new record in the shot put at the Missouri Valley indoor meet at Kansas City recently when he hurled the iron 45 feet one and three-quarters inches. Sandefer, also of Kansas, is another star shot putter who will be here for the field events. Brutus Hamilton, former pentathlon champion of the University of Missouri also will be here.

To Smash Records.
A number of records are expected to be shattered at the Drake games. Among these are the shot put and the four mile relay. Wisconsin now holds the record made in 1916 which is 18:02. In a recent indoor meet the Illinois team reduced this record by 12 seconds.

In the mile relay more than 14 teams are entered in the University section, including Drake, Illinois, Chicago, Iowa, Minnesota, Northwestern, Nebraska, Kansas, Notre Dame, Michigan, Iowa State, Oklahoma, Missouri, Grinnell and the University of South Dakota.

One of the new features of the meet will be the 440-yard relay. This is expected to prove popular on account of the large number of crack sprinters entered in short distance events.

Among the famous university and college coaches who will arrive with their respective teams are Tom Jones of Wisconsin; Knute Rockne of Notre Dame; Harry Gill of Illinois; Bob Simpson of Missouri; "Indian" Schulte of Nebraska; Howard Jones of Iowa; Frank Loomis Jr. of Hastings College; John Nicholson of the University of South Dakota. Rockne will be the official referee, Jones of Wisconsin, the official field judge and John L. Griffith the official starter of the meet.

Elks Hall Secured For May Day Stunt of American Legion

With the securing this morning of the Elks hall as a scene for the festival and with the arrival of carnival caps, serpentine, confetti, and other trappings, arrangements for the American Legion's May Day dance May 1 were practically completed.

Mayo E. McKeown, post adjutant, was negotiating with an orchestra and expected to have all details complete by tonight.

"It will be the keenest and most elaborate stunt in the way of social affairs that the legion has pulled in Ada," McKeown said. "We have not been stingy in buying decorations and everything will be complete for a regular spring blow-out."

Officials of the post intimated that special music would be a big feature of the dance. Many out of town guests are expected. This is being planned as a "lead-up" occasion for the annual May festival to be held by the Teachers College May 2. The two events, however, will be connected in no way.

DECREASE IN FEDERAL EMPLOYEES REDUCES PAY

MUSKOGEE, April 25.—Uncle Sam's payroll in Muskogee now amounts to approximately \$27,000 a month, which is considerably less than usual due to reductions in the Indian service appropriations resulting in a decrease in the number of federal employees.

Fifty-five employees in the postal service here now draw \$1,000 a month more than 202 employees in the Indian agency quarters, including the probate attorneys and the employees in the office of supervisors of the Indian schools, according to federal officials.

GLENWOOD PARK MAY BE OPENED MAY 2 IS PLAN

Plans for opening Glenwood Park bathing pool on May 2 were continued this week by the Ada Athletic association. Most of the cleaning up work and repairing has been completed and the bathhouse is being overhauled this week for the opening day. The pool has been drained, washed out and provision made for a running stream of water going in and out of the pool.

Work in the park has also been pushed during the past two weeks. A park keeper has been employed and he has started pruning small plants and trees and mowing the grass. Park swings and other play ground equipment is also becoming popular with the kiddies again. A tennis court and croquet court have been opened.

Ralph Warner, manager of the association, stated today that he would have the lighting system of the park completed within a few days and that the fish ponds and fountains would be running again before the pool is opened. Efforts will be made to make the park the gathering place for all the city and a special invitation to picnics will be issued.

Landis Plans Visit To Saint Louis For Papa Club Field Day

(By the Associated Press.)
ST. LOUIS, April 25.—Former Federal Judge Kenesaw Mountain Landis, supreme ruler of baseball, will visit St. Louis May 25 to help make the "Papa Club Field Day" a success. Charles F. Hatfield, director general of the movement, announced. The judge has accepted an invitation to be the guest of honor at the celebration.

The "Papa Club Field Day" is to be conducted under the auspices of the Papa Club of the St. Louis Park and Playground association. An athletic program at Sportsmen's Park, terminating with the Cardinal Pittsburgh game on that day, features the tentative arrangements for the day. Judge Landis is to throw the first ball and make a short speech.

The baseball commissioner will be tendered a luncheon preceding the program. In the evening he is to be the guest of the local Ohio society at a banquet to be given in honor. The judge is a native son of Ohio.

Proceeds from the game are to be turned over to the Park and Playground association to provide for sporting paraphernalia for the local playgrounds.

HERB J. EVERS ALL DRESSED UP

Johnny Evers in his role of assistant manager.

The keen brain of Johnny Evers is counted on to help materially in the molding of the new White Sox machine Manager Kid Gleason is building. Evers was signed last winter as assistant manager and has already made his presence felt.

NAVAL SEAPLANES OUT TO SEEK SANTA MARIA

(By the Associated Press.)
KEY WEST, Fla., April 25.—The commercial seaplane Santa Maria, which left here Monday at 6:10 for Nassau with six persons aboard, one a woman, has not arrived at its destination and naval seaplanes of the Atlantic squadron left here early today to search for it.

Jack Dempsey Abroad

By NORMAN E. BROWN

It's Sweet Sixteen for Eddie Collins. The second season is now playing his sixteenth season in the big show and shows few signs of slipping. He is engaged now in helping Kid Gleason build up a new baseball machine for the White Sox Fans.

Collins was one of Connie Mack's first "school boy wonders." Connie coaxed Eddie direct to the Athletics from Columbia college in 1906. He was captain of that great aggregation that reigned supreme in the American league in a few years previous to the collapse of 1914.

When Connie Mack decided to break up his White Elephant team Owner Comiskey of the White Sox made the then huge offer of \$50,000 for Eddie and Connie took the fifty thou.

Collins has played in five world's series. The last was that sad affair of 1919. Collins was one of the few members of the White Sox big enough to stand clear of that "throwing" scandal.

Eddie is a native of Millerton, N. Y. He is now thirty-five years old.

SEPARATE WAGE SCALES COMING IN COAL FIELD

(By the Associated Press.)
SPRINGFIELD, Ill., April 25.—Separate wage agreements by striking coal miners with operators were declared imminent by State President Frank Farrington of the Illinois Mine Workers here this morning.

Reports have reached district headquarters here, Mr. Farrington said, from "delicate" sources showing that locals in Kentucky and Tennessee are signing separate wage agreements with operators in violation of the policy of the United Mine Workers of America, and that in the Alabama district officials have ordered union miners to continue work in deliberate violation of the national policy.

"Sooner or later separate district wage scales will be the rule," Mr. Farrington said.

"While making this general statement, Mr. Farrington would make no specific statement regarding the prospects in Illinois, but said that in Illinois as in other states 'separate wage scales are imminent.'"

"YOUNG BOB" HAS TWO MASCOTS

"Young Bob" Fitzsimmons, Mrs. Fitz and their child.

"Young Bob" Fitzsimmons, son of the old time heavyweight idol, has changed his ring tactics and believes that the change will lead him to the success he has sought in vain so far. "Young Bob" started out as a speedy, shifty boxer without a wallop—the thing that made his dad famous. Now "Young Bob" is training diligently near New York to develop a real knockout kick and the physique necessary to hand it out.

MATERNITY ACT GREAT AID FOR CHILD WELFARE

(By the Associated Press.)
BALTIMORE, Md., April 25.—The work of the child welfare committee of the National League of Women Voters has met with great success in the passage of the Sheppard-Towner act for the public protection of maternity and infancy. Mrs. LaRue Brown, Brookline, Mass., chairman of the committee, told the convention of the women voters league today.

Mrs. Brown pointed out that although the act only became a law on Nov. 23, 1921, its provisions already have been accepted by thirty-nine of the forty-eight states, either through legislative or executive action.

"Only nine states," she said, California, Louisiana, Maine, Massachusetts, Nevada, New York, Rhode Island, Tennessee and Washington

have not yet taken the steps necessary to enable them to receive the benefits the act offers. Ten acceptances were made by the state legislatures. In the other states where the legislatures have not been in session this year the acceptance has been made by the governor and it will be necessary for the legislatures to renew this acceptance when they convene next winter.

"It is important for us to bear this fact in mind, for the experience of New York and Massachusetts, both of which refused to take advantage of the Act, has shown that in regions where anti-suffrage feeling is still strong, and where the modern version of the 'states rights' sentiment is effective, a definite campaign of education will be necessary.

"The significance of the passage of this act will only be fully understood when it has been in effect for a year or more. It must be proved by actual experience that the services of public health nurses, and education in prenatal and infant

SULPHUR COMING SUNDAY TO MEET ADA BALL SQUAD

Sulphur town baseball team, claiming to be the strongest in this part of the state playing independently, has been booked by Manager Green of the Ada Independents for the game next Sunday at Fair Grounds park. The Sulphur team is backed by the Chamber of Commerce and is said to carry salaried men.

Manager Green's men have had two weeks for work-outs after their opening game with Wilson and Company of Oklahoma City. The squad has been improving and their batting eyes are being brightened. The game has been scheduled to start at 3:30 p. m. which will give all a chance to see it. Mr. Green was confident of a larger attendance at this game as it was not being started so early. It also promises to be a good one.

He intimated that practically the same Ada line-up as was used two weeks ago would go to the field again Sunday, with only a few necessary changes to strengthen the team.

Sport Jabs

And yet we can remember a time when old-fashioned folk complained bitterly because young sports let their horses trot too fast on Main street.—Ex.

Before the balm days of May have run their course, aspiring golfers of Ada will be treading over their own links south of the city. And then, perchance, as the busy wife goes about her spring housecleaning she will be humming the ditty:

"Oh, the lass who loved a sailor,
Didn't lead as lone a life
As the lass who loved a golfer
And became the golfer's wife."

A boxer from Allen said he carried a "sleeper" in two gloves. Archie Cooper took both of his knockout drops and waxed as fat as if the "sleepers" had turned out to be only beauty naps.

Unless Frank Potts, the big Ada athlete, looses some of his form before this week-end he is liable to smear the fame of the "three letter town" all over the state's athletic map at the Norman interscholastic meet Saturday.

Ada ball fans have a little scheme of their own to make their own lovers of the diamond sport pay 50 cents a nap for sleeping away Sunday afternoon when there is a game on at home. Bill Coffman is a "Pullman conductor" who grabs their fee without fear or favor.

care can be made available by the aid of this act, and under the direction of the state health departments, to women in the most remote parts of our county. When this is demonstrated, and when it is shown that life and health can be saved by these simple methods in the rural regions of the United States as they have long been saved by private effort in our great cities, there will be no longer any need to argue that it is worth while for the government to spend money on health education. The health of a nation is indeed a matter of national concern, and the Sheppard-Towner Act is a recognition of this principle."

The crime wave which has been sweeping over Germany since the war is attributed to the "drink craze," beer no longer satisfying the natives.

COLLEGE NINE TO MEET O. B. U. HERE

Closing Games of Season to Be Staged This Week Announcement

After a week's rest baseball stars of the Teachers College are preparing again to don the war garb this week and meet the Shawnee Baptists for the first of two series of closing games of the college season. The first game will be played here Thursday afternoon on the college field and the next here Saturday. Friday will be given over to the quadrangle track and field meet with Oklahoma City College, Shawnee Baptists, Durant Teachers and Ada Teachers competing for honors. Coach Thompson stated today that he was confident that his men would have two victories over the Shawnee visitors. He is using a practically unchanged line-up and believes his men will be able to pound the pill hard in the two games this week.

The quadrangle meet will be the first of its nature ever held in Ada and will draw state-wide attention. It is being held, the coach explained, to give athletes from the four colleges a chance to compete for honors without having to go against the much stronger squads from University of Oklahoma, Weatherford and Stillwater Aggies. Only ribbons will be awarded the winners.

Harry Schlenberg, who has been training the college track team, was pleased with the showing the men have made, especially with two or three of them. Most of the team have been working hard for several weeks and are fast rounding into condition for the meet. Hacker, a former high school track and field star, is eligible for the meet and is working out. With this addition to the team, the Ada coaches were pleased with the chances for a good showing in the forthcoming meet.

Army Officers Are Involved in Giant Motor Parts Fraud

(By the Associated Press)
NEW YORK, April 25.—New army frauds involving several army officers and men of the Army Motor Transport Corps whereby hundreds of thousands of dollars worth of gasoline, tires, separate parts and motorcycles were stolen and sold, were uncovered during the roundup of witnesses for the court martial Thursday of Capt. George P. Simms, also under arrest for alleged fraud at the Brooklyn army base.

Wynona and Buffalo Bonds Are Declared Good by Short Today

(By the Associated Press)
OKLAHOMA CITY, April 25.—Bonds issued at Wynona and Buffalo were described as "good" today by George Short, attorney general, in a conference with J. E. Bristow, county attorney of Carter county, and G. C. Grant, county attorney of Adair county. The attorney general told the county attorneys that information received by his office indicated that the cities would be able to pay off the bonds.

He said that W. W. Wright, county treasurer of Adair county, had informed him that Buffalo was meeting interest payments on its bonds regularly.

Both Bristow and Grant came here for a conference because their counties had funds invested in bonds of the two cities.

YOUNG SWIFT CHARGED WITH STAGING DRUNK

CHICAGO, April 25.—"Swift was so drunk that he had to be helped to jail," declared Policeman Lawrence Hens, in testifying at the trial of Louis F. Swift, Jr., son of the millionaire packer on charges of driving his car while intoxicated. The case was continued 10 days when the defense will present its side of the case.

ONE MAN KILLED AS TWO TRAINS COLLIDE

(By the Associated Press)
PITTSBURGH, April 25.—One man was killed and several others injured when a fast train on the Frisco crashed into a circus train at Girard early today. A misunderstanding of orders is believed to have been the cause of the collision.

The passenger train, Oklahoma bound, struck a workmen's car. No one on the passenger train was injured.

KU KLUX KLAN CHARGED WITH DYNAMITE SCARE

(By the Associated Press)
PITTSBURGH, Pa., April 25.—County detectives have started an investigation for the purpose of determining the identity of persons said to be members of the Ku Klux Klan who on Saturday night caused damage set at \$3,000 in blowing up a portion of a hill and burying a part of the Elk Horn road under 50 tons of earth. The explosives were said to have been stolen from local companies and set off as the opening rites of a celebration.

FIXED OPINIONS RULE OUT SMALL CASE JURORS

(By the Associated Press)
WAUKEGAN, April 25.—Fixed opinion possessed by jurors continued to empty seats in the jury box at the opening today of the second day of the trial of Governor Len Small, charged with conspiracy to embezzle state funds.

LIGHT VOTE ON BONDS CAST AT OKLAHOMA CITY

(By the Associated Press)
OKLAHOMA CITY, April 25.—What promises to be the lightest vote cast here in a dozen years is being polled today in the election for \$1,900,000 bonds for city schools. Shortly before noon, less than 1,000 ballots had been cast. Sentiment for and against the bonds appeared to be about evenly matched between the north and south precincts of the city.

IRISH BRIGADIER SHOT TO DEATH IN ATHLONE

(By the Associated Press)
DUBLIN, April 25.—Brigadier General Adamson, commander of the Athlone brigade of the Irish republican army, was shot to death today near the headquarters of the Independent Republican forces in Athlone.

Justice of the Peace J. R. Turner of Vanoss was in Ada today on business. Judge Turner has the distinction of having served in his present position since statehood with the exception of three years. He says things in the Vanoss neighborhood are better than one would expect, and conditions are promising.

Republicans Plan For Wiping Clean \$500,000 Deficits

(By the Associated Press)
WASHINGTON, April 25.—Plans for wiping out the deficit of the republican national committee, said to amount to about \$500,000, were discussed at a meeting yesterday between Chairman Adams, treasurer, and Charles D. Hills, the latter a committeeman from New York and chairman of the finance committee. No announcement was made of any conditions reached but it was said that no difficulties were anticipated in raising the funds to cover the deficit and provide for the congressional campaign.

PENDING TARIFF BILL WOULD SETTLE RATES

WASHINGTON, April 24.—Provisions in the pending tariff bill which would authorize authorities to increase or decrease rates and protect American valuations were disclosed today to the senate by Senator Smoot, republican of Utah, as not only a solution of the present tariff problem now before congress, but also as "a suggested practical basis for a continued scientific adjustment of the tariff in the future."

Wall street broker \$3,500,000 in debt. A man who tries to catch fish often loses his bait.

Farmers' Column

By Byron Norrell

C. W. Zorn says it is best to plant peanuts unshelled. However, if a shell contains several kernels it may be broken so that only one or two kernels remain in part of the shell to be planted. He says that when peanuts are shelled the skin on the kernels is likely to be injured and this may prevent them from coming up.

J. S. Higginbotham, who lives seven or eight miles northwest of Ada, has planned a diversified crop for this year as follows: corn 35 acres; cotton 15; peanuts 5; feta-rita 5; melons 3 3-4. He will also plant plenty of potatoes and garden truck to supply the family needs and raise some 250 hogs. He has a field of 25 or 30 acres in alfalfa. For market and meat purposes he considers a cross between a Poland

China male and Duroc sow the best type.

Thomas Higginbotham, a club boy northwest of Ada, reports a gain of more than two pounds per day with his club pig. It weighed 84 pounds when he started with it and 31 days later it weighed 148, a gain of 64 pounds. He feeds it two ears of corn in the morning and three at night. Morning, noon and night he gives it half a gallon of skim milk.

The father of a club boy tells a good one on his young son who is making good with a pig. The boy asked his father if he, the father, would not move his hogs somewhere else, that he objected to his pig drinking the slop that the others were on, considering that it should have skim milk only.

C. S. Aldrich has broken the record, so far as I have heard, in paying a high price for some fine Rhode Island Red eggs. They cost him \$2.00 each. He ordered them

from a famous flock in Massachusetts.

While at Roff Saturday afternoon I met Mrs. Frank Nordean, who stated that she and her family are milking 14 cows and feeding 50 pigs on separated milk. They have been shipping cream for several years and are still at it. They also have a number of colonies of bees, but lost some during the last freeze and snow storm that visited this section.

The next week or two will be a critical time for bees. The hives are full of young brood now and it takes a great deal of food to carry them through. The bees are working hard but experienced bee men say it will be sometime yet before the honey flow is enough for them. The difference must be made good from what is already stored in the hive or else the bees must be fed sugar syrup until there is more honey to be gathered.

Greenbugs are reported to have made their appearance in some of the grain fields of Pontotoc county.

In an effort to beat the boll weevil E. H. Simpson, who lives on my farm, between Stonewall and Lula, will plant every other row of his cotton field in peas. If the cotton falls we shall still have something on the land that will improve it and also furnish some feed.

Here is one from a neighboring county. A farmer was talking about the uselessness of a county agent. "He can't teach me anything about farming, I have worn out three farms in my life time." Wearing out his land is something the agent would not have taught him.

According to E. A. Hardee, who has been connected with the mercantile firm of Moseley Bros. of Hickory for the past twelve years, Hickory is still in the lead in the matter of cream shipments. There are two cream stations in the town and several people ship direct. He estimates the total sales and shipments of last Saturday at anywhere from 125 to 150 gallons and this was about an average Saturday. He estimates that the farmers of that vicinity average from \$1,500 to \$2,000 per month from this source. Several were shipping cream before the weevil disaster of last year and after that many others took it up. So far as he knows none who started it have quit and those who have been with it longest are sticking the tightest. While no one is getting rich, these people have a steady income and are keeping out of debt for their living expenses. The sale of cream separators increased 200 percent last year. In connection with their dairy operations the farmers are raising many hogs. Three cars have been shipped out during the past two weeks. Some of these were from Pontotoc county and did not figure in the 67 cars shipped from points within the borders of this county. Poultry is getting a good deal of attention and the sales from this source are considerable. As a result of these things Mr. Hardee says that business is better at Hickory than one might think at first glance.

New camera, making three exposures at once, is used in making maps from midair.

PAGE IS AWARDED ATKINS OIL LAND

Long Dispute Ended Today With Reversing Action of Supreme Court.

OKLAHOMA CITY, April 25.—Charles Page, millionaire of Sand Springs, near Tulsa, today gained possession of the celebrated Tommy Atkins oil lease in Creek county.

A decision of the state supreme court handed down today reversed the decision of the Creek county district court and remanded the case with instructions that judgment be entered for Page. The Creek county district court had awarded the cave to Sally Atkins, Creek Indian woman.

Action was brought by Sally Atkins May 19, 1920, to eject Page, the case being taken up in district court of Lucian B. Wright. On March 1, 1921, the court held that the claim of the Indian woman was just and gave her a judgment against Page for \$1,960,000. Page entered a motion for a new trial, but it was overruled. He then appealed to the supreme court.

Tommy Died in Infancy. TULSA, April 25.—The famous Tommy Atkins case, decided in the supreme court today, involved several million dollars and has long been in the courts. The latest decision was instituted in the district court at Sapulpa before Judge Lucian B. Wright, and from there was appealed to the state supreme court.

Tommy Atkins, an Indian, was allotted land which afterwards became worth millions in oil. He died in infancy. Charles Page, purchased the oil rights from the grantees of Minnie Atkins, supposed to be the mother and heir. Later Muskogee parties holding a lease under Nancy Atkins sued Page, claiming Nancy was the mother of Tommy. After last ing for years, Page won in federal court of the United States circuit court. The matter seemed settled when C. O. Lytle and others of Sapulpa revived it by filing suit before Judge Wright, claiming that they held a lease under Sally Atkins and Sally was the real mother of Tommy.

Judge Wright decided in favor of these Sapulpa claimants and the case was appealed.

First Judge Arrested. With the dismissal July 29 of charges against Judge Lucian B. Wright, of the district court of Creek county, Okla., the fourth part of the serial "Tommy Atkins" drama, was closed. This was the first instance of the arrest of a district judge in Oklahoma, on bribery charges.

A Tommy Atkins appeared before the Dawes territorial commission, in Oklahoma territory, in the '80's, and his name was entered on the rolls of the Creek Indian tribe. When he did not appear to claim lands allotted him by the government, the commission arbitrarily, a corner in the rocky barren ground which later became the famous Cushing oil field.

It was estimated at the beginning of 1921 that this field had produced about 1,500,000 barrels of oil then. Value of the lands was placed at slightly more than two million dollars, but so far as has been learned Tommy Atkins died a pauper, without ever claiming the lands.

When oil was struck near the lands, however, three women appeared who claimed motherhood of Tommy. The case, after years of litigation, which finally caused the arrest of an Oklahoma district judge, and his subsequent dismissal on charges of bribery, was first decided in favor of Minnie Atkins, represented by interests of Charles Page, a Sand Springs, Oklahoma, oil man.

They Continue to Fight. Minnie and Sallie Atkins had kept up the fight, long after Nancy, the third claimant to Tommy, has dropped the case because she said of lack of funds.

Federal Judge R. E. Campbell decided the case in favor of Minnie Atkins after Page had taken a lease on her land. Minnie later died in a home established at Sand Springs, Okla., from the proceeds of her oil lands. She was penniless, according to Page, having speculated with her money, and lost. Judge Campbell's decision was taken before the supreme court of the state.

On March 31 this year, District Judge Lucian B. Wright held in the district court of Creek county, at Sapulpa, Okla., that Sally, or Sallie was the mother of Tommy, instead of Minnie.

Attorneys for Sallie at that time, said they believed their case was won on evidence of Mrs. N. B. Moore, sister to Congresswoman Alice Robertson, who testified that Minnie appeared before the Dawes Commission in 1895, and had the names of three of her children changed. No mention was made of Tommy to her, then, she said, nor was any claim for payment of Tommy's allotment made although claims were put in for each of the three children mentioned. Mrs. Moore was an official of the commission at that time.

LEGION TO DISCONTINUE BREADLINE IN DETROIT

(By the Associated Press) DETROIT, April 25.—Unemployment conditions have so improved within the past few days that the emergency bureau of the American Legion announced yesterday it would, beginning today, discontinue the serving of free meals to unemployed world war veterans.

"We have a job for every former service man who is willing to work," Ben Bellows, manager of the bureau said.

STATE RECEIVED WEATHER JUMBLE FOR LAST MONTH

(By the Associated Press)

OKLAHOMA CITY, April 25.—Oklahoma received a jumble of weather in March which varied from 18 degrees below zero to 85 above, according to figures compiled by United States weather bureau officials here and made public today. The 18 below report was recorded at Kenton March 1, and tied the previous low record for that date which was made at Hooker in 1920. Both cities are in the panhandle, Kenton being almost on the New Mexico line. The mean temperature for the month was 1.8 below normal, according to the announcement.

The average precipitation for the state computed from the records of 86 stations was 4.25 inches. This was 1.96 inches above the March normal and the highest average in the 31 years of which records have been kept, according to the announcement. The previous precipitation record was made in 1897 when 4.16 inches was recorded during the month.

The greatest total precipitation during the month was 10.18 inches at Wyandotte. Kenton again came to the fore with a record as the driest place in the state, only 0.05 inch being recorded there. The greatest amount of precipitation in 24 hours was at Wyandotte when 4.42 inches of rain fell, according to the summary.

There were 14 clear days in March the remainder being either rainy, partly cloudy or cloudy, according to the announcement.

Referring to low temperatures in the month, the announcement listed the following on March 1: Hooker, 9 above; Hurley, 8 above; Goodwill, 7 above. On March 2: Beaver, 11 above; Woodward, 6 above; Buffalo, 4 above; Alva, 2 above; Mutual 1 above and Arapaho, zero.

The highest temperature, 85, was recorded at Waurika March 22 and at Norman and Mangum March 23.

E. Mont Reilly, governor of Porto Rico.

President Harding is reported to be considering the removal of E. Mont Reilly, his appointee as governor of Porto Rico, convinced Reilly is not the man to govern the

NO PULLMAN CAR FOR ADA HIGH DELEGATION

Reports from the high school this afternoon said that plans for the chartering of a Pullman car to transport the Ada high school band, orchestra and track and field men to state meet at Norman, had fallen through.

Due to the large number going from this place, school authorities favored a plan for chartering a car. This it was found, could not be made possible. Ada high school will be well represented at the state meet, especially in musical events, school officials said.

BEBEE FAMILIES CARRY DISPUTES TO COURT HERE

A dispute of children which ripened into an alleged fight among the parents brought two families and a crowd of outside witnesses from the Bebee community before Justice of the Peace H. J. Brown Monday for a final settlement of the feud.

As a result of the dispute, Mrs. Lona Drinnon plead guilty to a charge of assault and battery, and

was fined \$17.75. Tom Cowger was found not guilty on a similar charge and was dismissed.

The fight resulted, witnesses said, from an alleged assault of one of the children of the family of Charles Page upon a child of Tom Cowger's. A son of Cowger is then said to have carried the fight back to the Pages which led the elder Page to demand of Cowger a whipping for the son or a "whipping for himself." The men are then said to have battled. Page charged Cowger with assaulting him. Mrs. Drinnon, Page's daughter, was charged with fighting Cowger's wife.

"Come on, Alice, you know Mother said we are going to have Kellogg's Corn Flakes for lunch. And that's the kind I like to eat about a whole box of, because they ain't tough to eat! Come on an' hurry up!"

Kellogg's Corn Flakes are a taste-thrill at meals or any time

That's because Kellogg's Corn Flakes are so deliciously flavored—the Kellogg flavor that is known all over the civilized world! You, as well as the little folks, can eat great bowlfuls of Kellogg's Corn Flakes day after day—and each sunny-brown, crispy, crunchy spoonful thrills the taste as though it was the first!

Put Kellogg's in comparison with imitation corn flakes! Kellogg's Corn Flakes are never tough or leathery or hard to eat! They are all-the-time crisp, all-the-time good! Don't miss such enjoyment!

Insist upon Kellogg's in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! NONE ARE GENUINE WITHOUT IT!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.
